

Bank Converter

1. Print bank statement from bank
2. Export to csv and save on desktop under bank import

Download Statement

CSV2 (Comma delimited) ▼

Download Statement

PDF Download/Print

Must be CSV Only

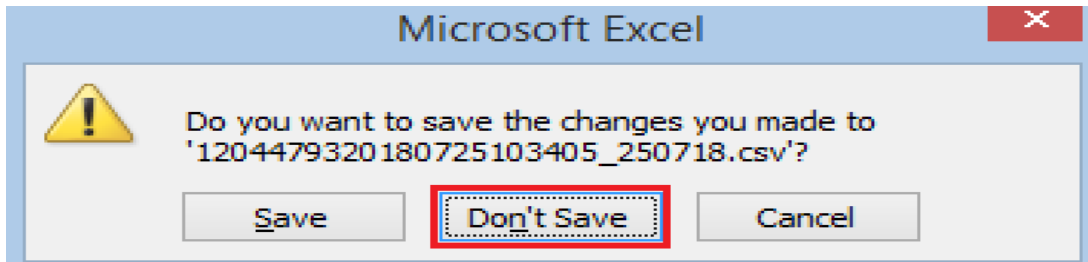

Click on Save – Save As and save in your location – where you will find it!

It will open your file in excel

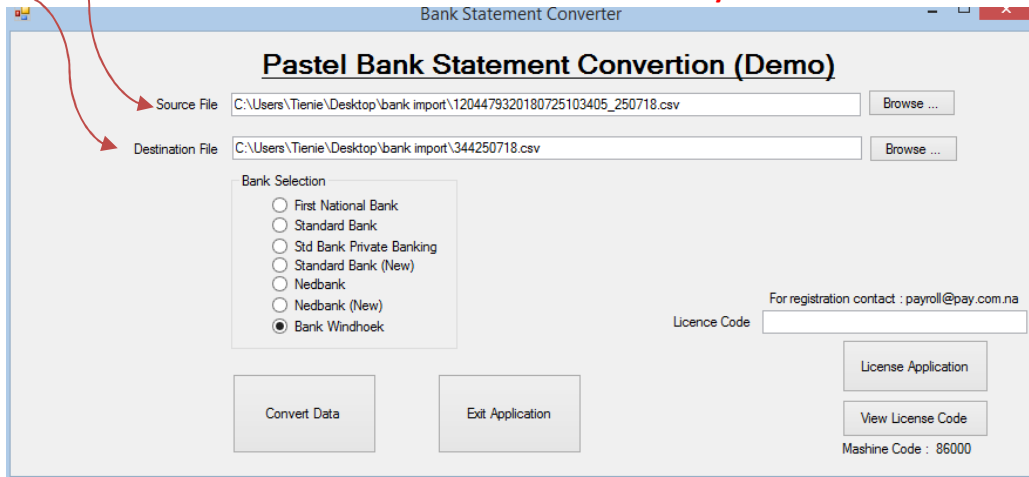

In Excel you must click on SAVE and follow the steps below

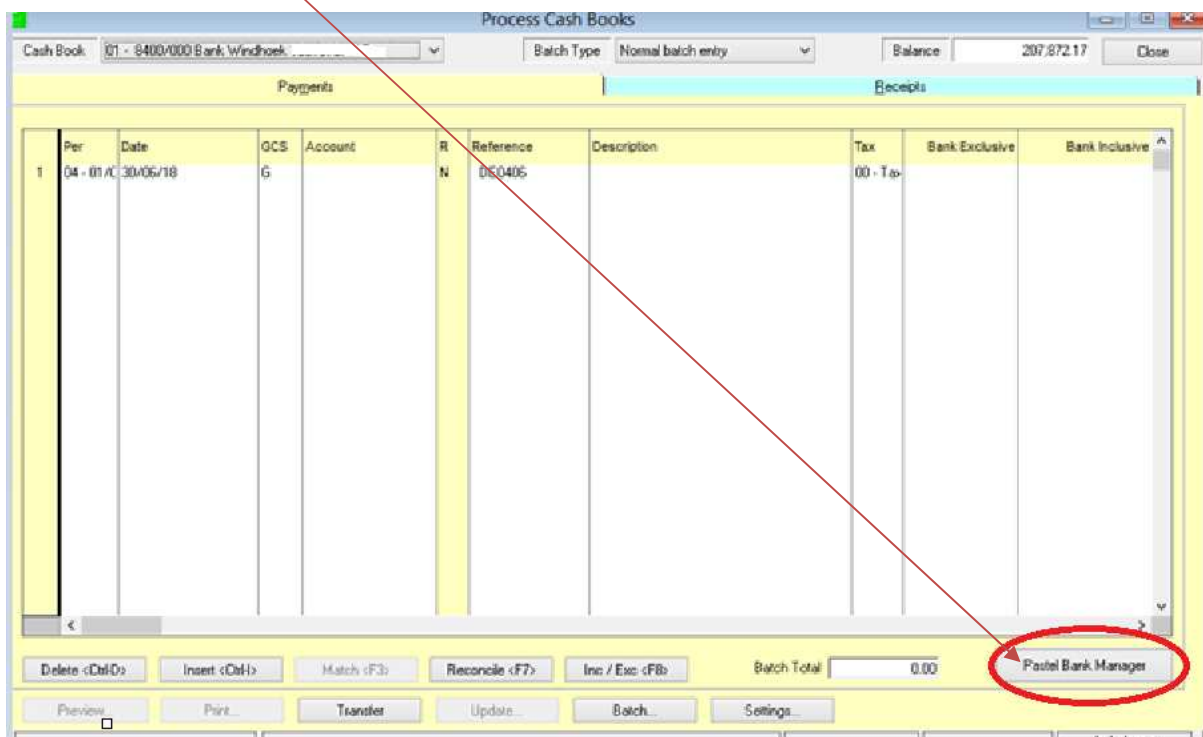

On the Bcon Screen you must:

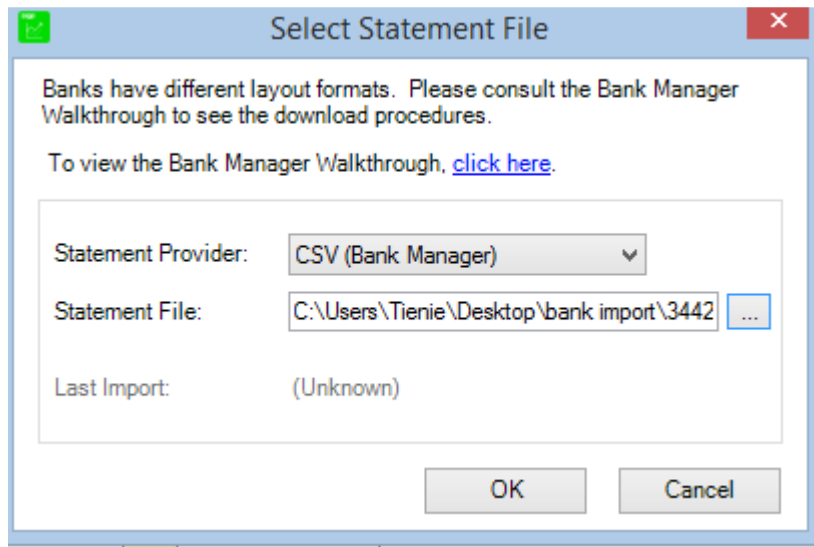

1. Browse for the file you want to convert – you will find it in the place you saved in previous steps
2. Browse to save the converted file – **this file must always have a .csv at the end**

In Pastel

1. Open the company you want to work in
2. Process cash book – choose the CORRECT CASH BOOK
3. Klick on Bank Manager

Your bank transactions will display on this screen:

1. Enter all account numbers
2. Add to Mapping if it is an item that appears every month
3. Once ALL account numbers is filled in you can create your batches – Rembert to make sure you use the correct vat and to still check every transaction.
